Jack—I'm in a quandary, sis. I want to propose to Mabel, but I'm not sure she'd accept me. His Sister (who knows)—Jack, you're like the letter "b"—In doubt when there's no need of it.—Boston Transcript.

#### RELAXATION.

Achievement is the result of the proper co-ordination between work and rest. Were it not for its regular fraction of a second rest between each throb the heart would soon pump itself out. Relaxation is energy stored up. There is to relaxation a quiet, cumulative power that is sure to hold you in good stead if ever panic or disorder come near, for it is at such times that every ounce of energy and resource is demanded. Relax as you work. Take time to think as you go. Reflect upon the improvement of everything you do. All things can wait upon a man building up and fortifying his own soul and his own character. Invest in relaxation.—George Matthew Adams.
